Professional Summary

Detail-oriented Data Analytics student specializing in Artificial Intelligence and Data Science with strong knowledge of Python, SQL, Power BI, Tableau, and Excel. Experienced in data cleaning, exploratory data analysis, dashboard development, and transforming complex datasets into actionable business insights to support informed decision-making.

Education

Erode Sengunthar Engineering College, Tamil Nadu 2023 – Present
B.Tech in Artificial Intelligence and Data Science (Expected 2027)

Nirmala Matha Convent Matriculation Higher Secondary School, Erode 2022
Higher Secondary Certificate (HSC)

Internships

Skillfied Mentor Jun 2025 – Jul 2025
Data Analytics Intern
Worked on data preprocessing, exploratory data analysis, and visualization using Python and Excel. Developed interactive dashboards to track key performance indicators and prepared structured analytical reports to support business decision-making.

Vcodez Nov 2025 – Feb 2026
Data Science Intern
Performed data cleaning, feature engineering, and exploratory analysis on structured datasets. Created visual representations to identify trends and patterns for business applications.

Zaalima Development Nov 2025 – Feb 2025
Data Analytics Intern
Analyzed business data to extract meaningful insights and supported stakeholders through structured reporting and visualization.

CodeAlpha Jan 2026 – Feb 2026
Data Analytics Intern
Designed performance dashboards and utilized SQL queries to analyze datasets. Assisted in interpreting business metrics and presenting insights effectively.

Cognify Technology Jan 2026 – Feb 2026
Data Analytics Intern
Conducted exploratory data analysis and built visual reports to assist in operational and strategic decision-making processes.

Projects

Banking Data Analysis
Analyzed customer transaction data to identify financial trends, deposit behavior, and loan performance. Developed dashboards to monitor banking KPIs and provided insights for improved customer segmentation and retention strategies.

Client Subscribed to a Term Deposit

Evaluated demographic and marketing campaign data to understand factors influencing term deposit subscriptions. Generated analytical reports to support data-driven marketing strategies.

Clickstream: E-Commerce Conversion and Funnel Analysis

Analyzed clickstream data to evaluate user journeys and identify drop-off points across funnel stages. Measured conversion rates and provided recommendations to improve customer experience.

Optistock – Supply Chain and Inventory Optimization

Examined inventory turnover, stock levels, and supply chain metrics. Built dashboards to support demand forecasting and reduce operational inefficiencies.

Talentview: HR Attrition and Workforce Dashboard

Analyzed workforce data to identify attrition patterns and retention trends. Created dashboards to monitor HR metrics and support workforce planning decisions.

Sentiment Analysis

Performed text preprocessing and sentiment classification using Python to analyze customer feedback and social media data. Visualized sentiment trends to interpret public opinion patterns.

Comprehensive Restaurant Data Analysis

Evaluated restaurant sales data to identify revenue trends, customer preferences, and peak performance periods. Developed dashboards to support operational planning and business improvements.

Technical Skills

Languages: Python, SQL

Libraries: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn

Visualization Tools: Power BI, Tableau, Excel

Databases: MySQL, PostgreSQL

Concepts: Machine Learning

Tools: Git, GitHub, Google Colab, VS Code, Jupyter Notebook, PuTTY, WinSCP

Certifications

Career Essentials in Data Analysis – Microsoft and LinkedIn

Secure Data Access in Power BI – Microsoft

Data Visualization – TATA

Gen AI Powered Data Analytics – TATA

Google Analytics – Google

Microsoft Excel for Data Analysis – Coursera

AWS Cloud Technical Essentials – Coursera

Achievements

- Secured 3rd Prize in a National Hackathon for developing a Smart Waste Management solution.
- Achieved 1st Prize in an Ideathon for creating a Digital Health Solution.
- Won 2nd Prize in a Paper Presentation competition for the Baby Health Passport project.
